```python
from PIL import Image

# 150%, Home button, zoom out once, F11 --- Windows+Shift+S click upright screen
im = Image.open('map_pngs/vol19.png')
im_crop = im.crop((400, 400, 800, 1600))
im_crop.save('map_pngs/vol19-cropped.png', quality=1000)

def cropImage(pngName):
    im = Image.open('map_pngs/' + pngName + '.png')
    im_crop = im.crop((400, 400, 800, 1600))
    im_crop.save('map_pngs/' + pngName + '-cropped.png', quality=1000)

cropImage('vol19')
cropImage('vol50')
```
